Do you have any other comments you'd like to add?

Answered: 16 Skipped: 8

It's nice to keep a bit of wild space, especially as fram is getting so built-up and concreted over nowadays. Would be an idea to make the centre a bit more of a wild meadow maybe? The paths could still be quite wide to allow the dogs a good run and it shouldn't be made a crime to run through the wild bit and have the dogs hunt for toys, just a few wild flower seeds would make a difference and it wouldn't look so un-kept, maybe it would encourage more people to come and watch the butterflies etc.. and protect it as a useable wild space in our town:)

7/17/2019 8:38 PM

There is an abundance of wildlife there. Butterflies, bees, beetles, birds etc. It is imperative to manage the cutting correctly, at the right time. Not like the roadside verges where bee orchids were recently cut down. It needs proper professional advice on management

7/14/2019 8:11 AM

This should be left as a green open space for the people of the town to use, as specified by Alec Cooper when he bequeathed it to the town.

7/12/2019 7:14 PM

7/12/2019 10:12 PM

I'd like it to be long to bring in the wildlife, butterflies, bees, bat's etc....

7/12/2019 7:32 PM

Be nice to use it for local events, car boot vintage rallies but I believe vehicular access is not allowed. perhaps the ban could lifted for special occasions.

7/12/2019 7:29 PM

I think it should have somewhere where kids could play football and runners could use as well, I think it is only used for dog walkers which seems a shame for such a lovely place

7/12/2019 7:27 PM

It is vital to keep this space for Framlingham residents- there are not many green spaces around and when I did have a dog it was wonderful.

7/12/2019 7:21 PM

With every bit of Framlingham currently being built on The Fens provides a very important habitat for wildlife and a green space for residents to enjoy. The only thing that needs to be done with it is for it to continue to be protected.

7/12/2019 6:52 PM

Dogs should be on a lead as most are not and it's annoying. More benches to sit on.

7/12/2019 6:39 PM

Leave the fens alone. They are beautiful as they are.

7/12/2019 3:20 PM

As long as there are no more houses that is fine

May I suggest having a wild flower Section somewhere in the Fen?

7/12/2019 2:20 PM

The natural environment should be protected and not invaded by excessive human intervention

7/12/2019 2:07 PM

Could a voluntary group create a small wildflower area?

7/12/2019 1:31 PM

Yes having a large area of long grass helps insects, birds, flowers and other wildlife to thrive. A path for walking is a necessity though (in our opinion). Thanks for the survey!
