

Hi James,

I hope you are well.

**New brackets cost £52.00 + VAT each, there is also a £7.50 + VAT delivery charge.**

Please find attached a quotation which shows our variety of solar SID options.

Unfortunately the ANPR can't be solar powered currently.

This can be a portable battery powered unit though, which would provide opportunities all over the town. Would that be an option you would be interested in? You would also require approvals from the police/Speedwatch setup to allow you to use the unit effectively. The data can be used to issue warning letters, however there is no prosecution capability.

I look forward to hearing from you.
