

AGENDA Item: 7.1

Dear James,

Please see email below from SCC Highways. Could you please respond to them with suggested sites as per the link to the proforma? Please copy me in when complete.

Regards

Stephen

(Maui FYI).

Subject: RE: ANPR camera trial in Framlingham - CR 342049

Dear Stephen,

Thank you for your enquiry.

My name is Jon Shaw and I am overseeing the operation of the ANPR project. my email is jon.shaw@suffolk.gov.uk

The ANPR project is currently in operation and has been since the 18th July 2022. We are currently conducting a piece of research evaluating the effectiveness of the

devices which will conclude at the end of October. After the research has concluded, I will begin regular rotation of the devices around the county.

Regarding Framlingham, to date I have not received any requests for sites. If they would like to request ANPR sites, they will need to fill in the following proforma and send it back to anpr@suffolk.gov.uk

Proforma:

<https://suffolkroadsafe.com/wp-content/uploads/2021/09/ANPR-Proforma.docx>

All the information about the project and site requirements are in the proforma. The devices require a SID post to be mounted on to. Most sites on my rota already have one, but if they do not have a suitable post in Framlingham, SCC will order and pay for a post to be put in a suitable place.

I hope this helps. If you have any further questions, please feel free to contact me via email.

Kind regards,

Jonathan Shaw

ANPR Officer
